SUMMARY

Enthusiastic and skilled MERN Stack Developer with a strong foundation in JavaScript, React.js, Node.js, and MongoDB.Proficient in designing RESTful APIs, implementing JWT-based authentication, building responsive frontends with React and Tailwind CSS, and integrating backend logic via Express.js.Experienced with Git, debugging, testing, and deployment.

EXPERIENCE

MERN Stack Developer, SOFTRONICS CALICUT, Kozhikode, India **Nov 2024 — Jun 2025**

- Developed and deployed scalable full-stack applications using React.js, Node.js, and Express.js
- Participated in daily scrums and contributed to fixing over 5+ UI and functionality bugs, helping reduce user-reported issues during testing phases.
- Participate in daily scrums and assist with resolving UI bugs and feature enhancements.

Software Developer Intern, Infotact Solutions, Bengaluru, India **Present**

- Assisted in managing sprint-based tasks and ensured codebase stability using Git and GitHub, contributing to the timely release of 3+ project modules.
- Supporting and testing of frontend components using React.js.

Front End Developer trainee, Zofir Technologies, kozikode, India **Aug 2025 — Present**

EDUCATION

Calicut University Institute of Engineering Technology, Kohinoor, Kohinoor, India, **Kohinoor, India** - *B.Tech, Information Technology* **Jun 2020 — Jun 2024**

GGVHSS Feroke, Calicut, India, **Kozhikode, India** - *Higher Secondary Certificate, Higher Secondary Certificate* **Jun 2017 — May 2019**

CERTIFICATIONS

Certificate of Internship in MERN Stack Developer, Softronics **Nov 2024**

Certificate of Participation Robotics Workshop **Jan 2022**

Industrial Training In TECH BY HEART, TECH BY HEART **Aug 2020**

Certificate of Awareness in Cyber Security and Cyber Traps **Jan 2023**

PROJECTS

CNN Approach For Disease Detection **Jun 2023**

- Created a CNN model to detect glaucoma and cataracts from retinal images using deep learning techniques.
- Applied preprocessing methods like resizing, normalization, and augmentation to improve accuracy.

Complaint Management System **Apr 2025 — May 2025**

- Applied JWT authentication, built role-based dashboards, and executed CRUD functionalities to streamline admin complaint handling.
- Enabled user registration, complaint submission, admin dashboards.
- Deployed the system with a clean UI for seamless user interaction across roles.

Full-Stack Ecommerce Agricultural Platform

- Developing a full-stack web application using the MERN stack to streamline direct transactions between farmers and buyers.
- Integrating secure JWT authentication, developing dynamic dashboards, and executing product listing and CRUD features.
- Focused on improving market transparency and farmer profitability.

SKILLS

Programming Languages	:	JavaScript, C
Frontend Technologies	:	React.js, Redux, HTML5, CSS3, Bootstrap, Tailwind CSS, Figma, Next.js
Backend Technologies	:	Node.js, Express.js
API Management	:	REST APIs, JWT
Development Tools	:	MongoDB, GitHub, Postman, VS Code, MongoDB Compass, JSON Web Token, NPM, DOM (Document Object Model), Deployment
