Dear Hiring Manager,

I am writing to apply for the Python Developer position at your company. I have completed my B.Com in Computers from GRK Degree College, Andhra Pradesh. To strengthen my technical skills, I also completed a Python Full Stack Internship at Innogeecks Technologies and earned a certificate in Python for Data Science from IBM.

During my learning, I worked on small projects like a password generator and an exploratory data analysis project using the Google Play Store dataset. I have hands-on experience with Python, SQL, HTML, Flask, REST APIs, and tools like Jupyter Notebook and PyCharm.

I am passionate about backend development and eager to grow in a professional environment. I am confident that my skills and willingness to learn will help me contribute to your team.

Thank you for considering my application. I have attached my resume for your review. I look forward to the opportunity to discuss how I can be a valuable part of your team.

Sincerely,
Sonu Kaushaki Mitta
