ACHUTH S

SoftwareDeveloper - Python-Django

+91 8593824910 | achuth4910@gmail.com
Bengaluru, India

PROFESSIONAL SUMMARY

Motivated and detail-oriented Python Developer with a strong foundation in object-oriented programming, data structures, and web development. Skilled in Python, Django and SQL, with hands-on experience through academic projects and internships. Passionate about writing clean, efficient code and eager to contribute to innovative software solutions in a dynamic development environment.

EXPERIENCE

Luminar TechnolabPvt Ltd. | 08/2024-02/2025

Python Web Development Expert - Intern

- Assist in developing and maintaining web applications using Django.
- Write clean, efficient, and reusable code following best practices.
- Work with databases (MySQL, PostgreSQL) to design and manage data models.
- Integrate third-party APIs and develop RESTful APIs for web applications.
- Collaborate with the development team to debug, test, and optimize code performance.
- Participate in code reviews and contribute to documentation.

PROJECTS

To-Do Application

Technologies: Django, Python, MySQL

- Built a full-stack To-Do app using Django and Python.
- Designed MySQL database for data storage and retrieval.
- Implemented user authentication and authorization.
- Created a responsive, user-friendly interface for task management

Product Importer

Technologies: Django, Python, Celery, Redis, SQLite, Git, Render

- Built a Django-based product importer supporting CSV uploads with asynchronous processing using Celery
- Integrated webhooks to trigger real-time status updates during background import tasks.
- Implemented product management features including list, create, edit, delete, and bulk delete.
- Deployed on Render with Redis, Gunicorn, and proper production environment configuration.

EDUCATION

Luminar Technolab, Kerala | 2024

Python-Django Full Stack Development

University of Calicut, IHRD College, Kerala | 2023

BSc Computer Science

TECHNICAL SKILLS

- Python programming
- Django framework
- HTML, CSS, JavaScript
- MySQL database management
- RESTful API development
- OOP concepts
- Git and version control
- Problem-solving and teamwork
