PROFESSIONAL SUMMARY

Results-driven Junior Software Developer with hands-on experience in ERPNext and Frappe Framework development. Proficient in Python, Core Java, and C++, with strong expertise in backend development, database management, and custom module creation. Experienced in designing data-driven solutions, optimizing business workflows, and delivering scalable, high-quality applications that improve operational efficiency.

TECHNICAL SKILLS

Programming Languages: Python, Core Java, C++, SQL, HTML, CSS
Frameworks & Tools: ERPNext, Frappe Framework, MariaDB
Core Competencies: OOPs Concepts, Backend Development, Database Management, Web Application Development, Data-Driven Reporting, Module Customization, Workflow Optimization
Languages: Marathi (Native), Hindi (Professional), English (Working Proficiency)

PROFESSIONAL EXPERIENCE

Trainee Software Developer **Sep 2024 – Feb 2025**
Dexciss Technology, Pune/Pimpri-Chinchwad Area

- Developed and customized ERPNext/Frappe modules using Python, enhancing core business workflows and improving client operational efficiency
- Designed and implemented data-driven reports and dashboards, enabling performance tracking and supporting strategic decision-making for stakeholders
- Created custom doctypes and enhanced existing features, streamlining team productivity and reducing manual processing time
- Optimized database structures using MariaDB and SQL, improving query performance and data integrity
- Developed and refined print formats to enhance document usability and professional presentation
- Collaborated with cross-functional teams to test, refine, and deliver high-quality solutions within project timelines

EDUCATION

Bachelor of Engineering (BE) – E&TC **Nov 2021 – May 2024**
Savitribai Phule Pune University (SPPU)

Diploma in Computer Technology **Aug 2018 – Aug 2021**
Maharashtra State Board of Technical Education (MSBTE)

CERTIFICATIONS & ACHIEVEMENTS

- Python 101 for Data Science – IBM/Cognitive Class
- GeeksForGeeks Python Course – GeeksForGeeks
- Retirement Industry AI Hackathon: T3 Hack – Certificate of Participation
- Unstop Talent Park 2025 – Certificate of Participation
- What is Generative AI – Certification Course (LinkedIn)

PROJECTS & KEY CONTRIBUTIONS

- Built custom ERPNext modules that automated business processes, developed custom ERPNext modules to automate business workflows and reduce manual work
- Customized ERPNext Print Formats to improve document presentation and usability
- Improved database performance by optimizing MariaDB tables and queries.
